Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: With the exception of the phrase "under optional user control" the amendment to claim 54 overcomes the 112/1 rejection. The examiner suggests rewriting step c to read --relaying said data to and from either one of the portable local communication base unit and an external wide area network,-- The "user control" or "selection" of the link could be included if the specification supports it, please point this out, if desired. The "local computer data networking" communication by/for the handset needs support in the specification .
